#### **MENTORE at the NATO workshop "Control and Risk Prevention of Dangerous Materials and Crisis Management"**

Last 26 and 27 March, NATO Science for Peace and Security Programme co-organised an advanced research workshop in Sofia, Bulgaria. This event, which welcomed a large panel of experts and scientists from NATO countries, eligible NATO Partner and Mediterranean Dialogue countries, provided a unique opportunity to raise the international community's awareness about MENTORE project.

The Italian Ministry of Transports, a MENTORE project partner, was invited to hold a speech on "Transport of dangerous materials: experiences of monitoring and control", in order to share its successful experience on surveillance system and discuss next steps to be implemented. Read the [MIT presentation](#).

The results of the workshop will be available as NATO Science for Peace and Security Series -

Environmental Security, published by Springer Science and Business Media.
