Galileo and EGNOS for public interest services

GNSS tracking & tracing applications and services showcase at MENTORE event

Last call for registration!

*25 November 2008
Sofitel Le Louise hotel
Avenue de La Toison D'Or, 40
Brussels - Belgium*

The MENTORE (iMpleMEntation of GNSS tracking & tracing Technologies fOR Eu regulated domains) project partners, supported by the GNSS Supervisory Authority, invite you to discuss about promising GNSS applications at the MENTORE event, titled "Galileo & EGNOS for public interest services" in Brussels on 25 November 2008.

The MENTORE event will allow different stakeholders, be it satellite providers, industry representatives, users, research institutes and European or local authorities to experience the **contribution to services of public interest brought by EGNOS and Galileo** and **discuss and forecast a regulatory scenario for GNSS**. The event, which is free of charge, will include high-level speakers and will provide state of the art information on the first results of the MENTORE project trials.

Conference programme and registration form on www.gnsstracking.eu

If you haven't registered yet, please note that seats are limited and will be allocated on a first-come, first-served principle by the MENTORE secretariat.

Coordinated by Telespazio and with the ERF among the participants, MENTORE is a project devoted to introducing EGNOS/Galileo in regulated "Tracking & Tracing" users' domains.
