

EGNOS services
for dangerous goods transports

SCUTUM

(SeCUring the EU GNSS adopTion in the dangeroUs Material transport) introduces EGNOS (European Geostationary Navigation Overlay Service) in the dangerous goods transports for Europe.

SCUTUM

Extends the Italian best case to France and Austria.

Turns proven demonstration into operation.

Leads research into fruition.

Exploits EGNOS benefits and value for authorities and commercial users.
